

■■ Urban Pro System

Smart Urban Management & Service Automation

■ Overview

Urban Pro System is a smart urban management platform designed to simplify city services, improve governance, and enhance the quality of life in urban areas. It provides a centralized platform where users can access government services, utilities, and complaint management in a transparent and efficient way.

■ Features

- ■ Centralized Citizen Services – One platform for all urban needs.
- ■ Real-time Complaint Tracking – Transparency for users.
- ■ Admin Dashboard – Data-driven governance.
- ■ Scalable Architecture – Handles large urban populations.
- ■ Mobile-Friendly UI – Works across devices.

■ Tech Stack

Category	Technologies	Purpose
■■ Frontend	HTML, CSS, JavaScript	Web Development
■ Styling	Bootstrap / TailwindCSS	Responsive UI
■■ Backend	Node.js / Express.js	Server-side Logic
■■ Database	MongoDB	Data Storage
■ Security	JWT / Session Auth	User Authentication
■ Visualization	Chart.js / D3.js	Analytics & Reports
